STIMMZETTEL

Stimmzettel für die Wahl des Stadtbezirksrates 11 Ahlem-Badenstedt-Davenstedt der Landeshauptstadt Hannover am 13. September 2026

Sie haben drei Stimmen: XXX. Sie können alle drei Stimmen einem Wahlvorschlag in seiner Gesamtheit (Gesamtliste) oder einer einzigen Bewerberin/einem einzigen Bewerber geben.

Sie können Ihre Stimmen aber auch auf mehrere Gesamtlisten und/oder mehrere Bewerberinnen/Bewerber desselben Wahlvorschlages oder verschiedener Wahlvorschläge verteilen.

Nicht mehr als drei Stimmen! Der Stimmzettel ist sonst grundsätzlich ungültig.

|                                                                                                                                                                                                             |                                                                                                                                                                                                                                  |                                                                                                                                                                                               |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                             |                                                                                                                                                                                           |                                                                                                                                                                                                         |                                                                                                                                                                                                                     |                                                                                                                                                                       |                                                                                                                                                                                                                  |                                                                                                                                                                                                                   |
