Programm Rucksack

www.hannover.de

**A PARENT EDUCATION AND LANGUAGE
DEVELOPMENT PROGRAMME**

For parents of three- to six-year-old children

As parents,

you play a vital part in your child's language development. Children raised multilingually need support so that they can learn both their first language and their second language (in this case German) effectively.

With the RUCKSACK parent education programme, you can help your child in his or her overall development with simple ideas for play and other practice activities.

Rucksack

- brings fun and games into the family
- encourages interaction between parents and children
- helps children acquire their first language and, at the same time, assists them in learning their second language, German, aided by language support received at day nursery
- recognises that parents are the best experts on their own
- children provides activity resources in several different languages

Rucksack

works like this:

- a qualified parent coach leads weekly, two-hour programme sessions for interested parents at the day nursery
- at home, parents help their children acquire their first language
- participation is free of charge

Rucksack

- helps level the educational playing field for school starters in Germany
- accepts multilingualism as an asset that strengthens identity
